## 11th International Cooperation Exchange in Barleben

Dear ladies and gentlemen,

After our very successful anniversary edition last year, with more than 170 participants from 10 nations, we cordially invite you to the **11th International Cooperation Exchange** from **April 20th to April 22nd 2026** in Barleben.

It is our highest goal, together with our committed network partners from business, politics and science, to present you with an exclusive and exciting program.  
As every year, our International Cooperation Exchange takes place at the same time as the Hannover Messe.

On **April 20th**, we will be welcoming our guests to our exclusive evening event at the Magdeburg Stendal University of Applied Sciences.

A top-class selection of contributions and themed tables awaits you on **April 21st**. Look forward to our matching formats and B2B-discussions as well as the possibilities for German and international companies to establish economic relations and exploit opportunities together. In the evening, the group boat trip on the Elbe traditionally rounds off this exciting and eventful day.

On **April 22nd**, we will visit the **Hannover Messe** together, which is presenting itself under the main theme „Industrial transformations and sustainability“.

If you are interested in participating, please register [HERE](#) by **April 2nd 2026**.  
The number of participants will be considered in the order in which they register. Take the opportunity to work with us to successfully establish business contacts with other companies.

I look forward to welcoming you to Barleben in April.

Best regards

Sven Fricke
